

South Slough National Estuarine Research Reserve Revised Management Plan 1994

Restoration Plan Database: Crystal Reports of Individual Plan Summaries

I. BASIC PLAN DATA

Plan name:

South Slough National Estuarine Research Reserve Revised Management Plan 1994

Brief description of plan:

This plan refines concepts presented in the original management plan (1984) and extends and strengthens the Reserve's ability to provide estuarine stewardship, research and education. The South Slough NERR includes a part of the South Slough watershed located south of Coos Bay along the Oregon Coast.

Region the plan is located within:

Pacific Region

Watershed(s) included within the plan:

P165x , P170x , P175x

Area plan covers (in square miles):

square miles

Plan scale:

State

Plan's lead organization(s):

South Slough NERR

Plan's Main Contact Information:

Anne Donnelly
PO Box 5417
Charleston, OR 97420

On-line version of plan:

Date of original plan:

1994

II. TECHNICAL INFORMATION

Plan includes restoration goals: Y

Level of detail of the goals:

G

Summary of the goals:

To maintain and restore the integrity and natural dynamic processes of an estuarine ecosystem representative of the Colombian biogeographic region.

Plan recommends or uses criteria for selecting restoration sites (e.g. cost benefit ratio, ecological benefits):

Y

Summary of the criteria:

Sites on the Reserve to be given highest priority for restoration are selected according to the Reserve's research plan.

Plan recommends restoration of specific project sites:

Y

Plan includes a discussion of funding sources:

N

Plan addresses long-term protection of restored sites:

Y

Partners included in developing the plan:

Federal

Type(s) of public outreach included during plan development:

Information not available

Plan includes public outreach as part of plan implementation (e.g. annual public meeting, local group participation):

Y

Plan discusses the application of innovative approaches to restoration:

N

Plan make use of GIS mapping capabilities:

N

Plan addresses monitoring/reference sites for ecosystem level monitoring (baseline conditions) by:

S

Plan addresses monitoring/reference sites for project level monitoring by:

S

The plan discusses or coordinates with other restoration plans covering the same geographic area:

Y

Other plan names:

Oregon Estuary Plan, Coos County Comprehensive Plan

Plan contains detailed information on historic and/or current habitat size, rate of loss, acres restored or protected, etc.):

Y

Summary of this habitat information:

One-quarter (4771 acres) of the South Slough watershed is part of the NERR.
